

DECKBUILDERS

DESIGNED TO REFLECT A LIFESTYLE

Client: Oakford Homes Ltd

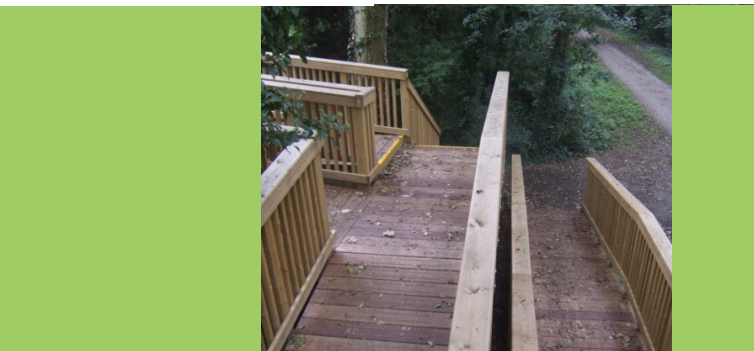

Project: Cycle Link

Location: Centurion Fields, Chichester

Completed: February 2011

Brief

Deckbuilders were tasked with completing the final design, supply and installation of a timber cycleway ramp including steps to link the Oakford Homes site at Mid Lavant to the Centurion Cycle/Pedestrian path. The ramp, landings, steps and handrail had to be DDA compliant. In addition the project had to be designed to work around existing trees and great care had to be taken not to damage the trees during the installation of the project.

Consultation Options

Timber

Iroko hardwood deck boards were used for the deck surfaces of the landings, ramps and steps. For the framing and handrails North European Redwood timbers were used, pressure treated to Deckbuilders standard specification of Tanalith E to Hazard Class 4. The nosing's on the steps had contrasting coloured strips incorporated

Resin Aggregate Inserts

All the deck boards on the ramps and the steps had double centralised anti slip aggregate inserts incorporated to aid with grip.
