

DECKBUILDERS

DESIGNED TO REFLECT A LIFESTYLE

Client: Bowbrook House School

Project: New Classroom Block **Location:** Peopleton, Worcestershire

Completed: December 2017

Brief

Deckbuilders were asked to design, supply and install a classroom block for 120 senior pupils, containing 6 classrooms, a reception area, office, store rooms and 3 toilets. The key criteria was for the new building to blend into the surrounding Parkland and it was therefore agreed to use SIPS panel system, clad in Western Red Cedar with Cedar shingles.

Deckbuilders working closely with the planning department and Building control completed this new build from start to finish within 4 months.

Consultation Options

Western Red Cedar shingles with Western Red Cedar cladding and standard SIPS panel construction manufactured at our head office.

Challenges

Firstly, being a school, the children. Health and Safety being a key priority at every aspect. The logistics from first breaking ground to completing the decking and paved areas all to be ready for Christmas.
