

DECKBUILDERS

DESIGNED TO REFLECT A LIFESTYLE

CASE STUDY:

Corkfield, The Residences

LOCATION: Edgbaston,
Birmingham

COMPLETED: October 2023

Corkfield, The Residences is a vibrant, close-knit community of 375 apartments right on the edge of the city.

Deckbuilders UK Ltd were appointed to install a podium decking area to a residential apartment development situated next to Edgbaston cricket ground in Birmingham. There were two public realm areas constructed for this development. One area was a first floor podium of approx 750m², the second area was 200m² on the 8th floor.

SYSTEMS USED

Porcelain tiles onto aluminium frame, powder coated aluminium decking and powder coated aluminium planters of varying heights, we were also instructed to install 100m² of astroturf into the design.

Due to the nature of the building surrounding the podium all materials had to be craned up, including 1200 tonnes of topsoil, turf, trees and plants.

DETAIL

Porcelain paving and aluminium decking onto aluminium rail system, aluminium planters, astro turf. Size of the project 700m², took 3 months. Built on a podium courtyard surrounded by apartments.
